Only 2nd half of the original book, how could this be published like this?By JJWI ordered this book believing that it was simply an updated copy of the original book published in 1885. I was quite surprised and disappointed to learn upon receipt that it is only 1/2 of the original book, beginning at p. 501! There is not excuse for a book to be sold with the first half missing. Very disappointed in and the actual publisher, ULAN Press.1 of 2 people found the following review helpful. Price is right - I can have BOTHBy CaroleAnneThis is a quick fix - the book so quickly downloaded and ready to read - couldn't get any better than that!While it took care of my immediate curiosity, I am still of the old days wanting a "hard copy" to glance back and forth in as well as the immediate ebook. So, I am of both worlds and will PURCHASE both since the price is so right! I can have one to access at any time and the hard copy to add to my family genealogical collection.1 of 2 people found the following review helpful.
